WHAT IS A SERIOUS GAME?

An activity where players immerse themselves in materials presented in a game format that is not designed solely to entertain.

The 'game' element uses competition, incentives, or other means to encourage players to achieve a conclusion, outcome, or some other goal (earning points, marking progress, 'winning', etc.).

HOW DO THEY WORK? WHY DEVELOP OR USE THEM?

Serious games may be/include:

- Digital or 'in-person'
- Single- or multi-player
- Scenario-based
- Short- or long-duration
- Simulations
- Role play

Potential goals or outcomes:

- Education
- Training
- Engagement
- Raising awareness
- Team-building
- Information exchange
- Developing more informed, less biased dialogue or approaches

Gaming  potential to make learning, participating more interesting, with possibility of greater retention, involvement, awareness...
