

## FLOOD HISTORY

Compiled December 2015

<b>NOAA National Weather Service (NOAA/NWS)</b>	<b>Flooding in Idaho</b>	The types of flooding that occur in Idaho are described along with historical accounts of selected flood events.	<a href="http://www.floodsafety.noaa.gov/states/id-flood.shtml">http://www.floodsafety.noaa.gov/states/id-flood.shtml</a>
	<b>National Climate Data Center</b>	This database contains records of floods, storms, and other significant weather phenomena. Search filters include calendar date, event type, and county. Property damage estimates are included for some events.	<a href="https://www.ncdc.noaa.gov/stormevents/">https://www.ncdc.noaa.gov/stormevents/</a>
	<b>NOAA/NWS Hydrologic Information Center – Flood Loss Data</b>	This website provides estimated flood loss figures nationally and by state. It also includes flood fatality data.	<a href="http://www.nws.noaa.gov/hic/index.shtml">http://www.nws.noaa.gov/hic/index.shtml</a>
<b>U. S. Geological Survey (USGS)</b>	<b>Stream Gages Historic Data</b>	This website allows users to get information, including flood inundation maps and news coverage, on historical flood events that involved a national coordinated USGS response.	<a href="http://water.usgs.gov/floods/history.html">http://water.usgs.gov/floods/history.html</a>
<b>Idaho Bureau of Homeland Security</b>	<b>Idaho Flood Risk Assessment</b>	Chapter 3 from the State Hazard Mitigation Plan assesses flood risk and history in Idaho.	<a href="http://bhs.idaho.gov/Pages/Plans/Mitigation/SHMP.aspx">http://bhs.idaho.gov/Pages/Plans/Mitigation/SHMP.aspx</a>
