

SECTION	DVD ID	SUBSECTION	DESCRIPTION	FORMAT	SOURCE/DATE	WEB LINK
1) VIDEO		So, You're a Floodplain Manager?	Short video summarizing roles and responsibilities of local floodplain managers.	Electronic File		
2) CONTACTS AND GENERAL INFORMATION	2a	Who Do I Contact For . . . ?	A list of Federal and state regulatory agencies involved in floodplain management.	PDF and Web Link	IDWR 2016	https://www.idwr.idaho.gov/floods/contacts.html
	2b	Duties of a Local Floodplain Administrator	A summary of your roles and responsibilities as the floodplain manager for your community or county.	PDF	STARR 2013	
	2c	Frequently Used NFIP Acronyms and Abbreviations	A list of acronyms typically used by floodplain management professionals.	PDF	IDWR 2015	
3) RECOMMENDED TRAINING	3a	Recommended Training	List of recommended training to assist with fulfilling your role as a local floodplain manager organized by beginning, intermediate and advanced levels. Online Course Information Available.	PDF	IDWR 2015	
	3b	How to Read a Flood Insurance Rate Map Tutorial	This tutorial educates users on the use and application of the Flood Insurance Rate Maps (FIRMs) produced by the Federal Emergency Management Agency (FEMA). Each component of the FIRM is explored. The tutorial includes a section that contains examples of how to get specific information from FIRMs.	Web Link	FEMA 2016	http://www.fema.gov/media/fhm/firm/ot_firm.htm
	3c	Summary of NFIP Policy for Local Officials (FEMA Region X)	A summary of NFIP policy to assist local governments in their floodplain management programs.	PDF and Web Link	FEMA 2004	http://www.floods.org/ace-files/Projects/R10_NFIP_Summary_for_Local_Officials.pdf
	3d	Building Public Support for Floodplain Management	A guidebook to help the local floodplain officials gain support from the public, including practices and approaches.	PDF and Web Link	ASFPM 2010	http://floods.org/ace-files/documentlibrary/Publications/BPS_Guidebook_2_1_10.pdf
	3e	Increased Cost of Compliance Coverage - Guidance for State and Local Officials (FEMA 301)	A quick-reference tool providing guidance to local officials on Increased Cost of Compliance Coverage under the NFIP and how it relates to your community's administration of floodplain management laws or ordinances.	PDF and Web Link	FEMA 2013	http://www.fema.gov/pdf/plan/floodplain/fema301_section4.pdf

SECTION	DVD ID	SUBSECTION	DESCRIPTION	FORMAT	SOURCE/DATE	WEB LINK
4) MODEL ORDINANCES	4a	Idaho Model Ordinance	This is an example Floodplain Ordinance that includes State and National Flood Insurance Program (NFIP) minimum standards. Communities should use this as a guide when establishing local standards.	MS Word and Web Link	IDWR 2015	http://www.idwr.idaho.gov/floods/forms.html
	4b	Community Rating System (CRS) Credit for Higher Regulatory Standards	FEMA Region X higher regulatory standards for floodplain management, with examples.	PDF and Web Link	FEMA 2006	http://www.fema.gov/media-library/assets/documents/8651
5) TEMPLATES AND FORMS	5a	Example Floodplain Permit Application For All Development in a SFHA	Application for all development in a SFHA.	Web Link	IDWR	http://www.idwr.idaho.gov/files/floodplain_mgmt/Floodplain_Development_Permit.docx
	5bi	Elevation Certificate for Structural Development	Fillable FEMA Elevation Certificate and Instructions.	PDF and Web Link	FEMA 2012	http://www.idwr.idaho.gov/floods/forms.html
	5bii	Floodproofing Certificate for Non-Residential Structures	Use this for non-residential structures which can be floodproofed instead of elevated.	PDF	FEMA 2016	
	5c	No-Rise Certification	Procedures for No-Rise Certification for Proposed Developments in the Regulatory Floodway.	PDF and Web Link	FEMA 2013	http://www.fema.gov/no-rise-certification-floodways
	5d	Change a Flood Zone Designation - Online Letter of Map Change	Link to FEMA's Online Letter of Map Change web application intended for homeowners and other interested parties that wish to submit the application online instead of using the paper form method.	Web Link	FEMA	https://www.fema.gov/change-flood-zone-designation-online-letter-map-change
	5e	LOMA - Out as Shown Instructions	Explanation and instructions for requesting Out as Shown.	PDF and Web Link	FEMA	http://www.fema.gov/mt-ez-form-instructions
	5f	eLOMA Factsheet	eLOMA Factsheet describing quick and easy online process to submit selected LOMA requests for lots or structures with no fill by licensed surveyors or engineers or other FEMA permitted certified professionals.	PDF and Web Link	FEMA 2015	http://www.fema.gov/media-library-data/1426511957633-ecfe2c0bce2556d5ab20b490ddc42582/eLOMA_Factsheet_2015.pdf
	5g	MT-EZ - Single Residential Structure or Lot Amendments to NFIP Maps (Not Built on Fill)	PDF and web link providing forms and instructions for single residential structure or lot amendments to NFIP Maps (not built on fill).	PDF and Web Link	FEMA 2012	http://www.fema.gov/mt-ez-form-instructions
	5h	MT-1: Conditional and Final LOMAs and LOMR -F (for Single or Multiple Lots/Structures)	PDF and web link to forms and instructions to request changes for multiple lots or structures, for proposed structures, and for map changes based on fill.	PDF and Web Link	FEMA 2013	http://www.fema.gov/mt-1-application-forms-instructions
5i	MT-2: Conditional Letters of Map Revision (CLOMR), LOMRs, and Physical Map Requests	The web page provides a series of 12 forms and instructions for LOMR application submitted through the mail. The page is intended for home and property owners and community officials who wish to submit a MT-2 application via paper form.	Web Link	FEMA	http://www.fema.gov/mt-2-application-forms-and-instructions

6) REGULATIONS	6a	CFR 44, Subchapter B, Part 60 - Criteria for Land Management and Use	Code of Federal Regulations regarding floodplain management regulations for NFIP.	Web Link	Online 2015	http://www.ecfr.gov/cgi-bin/text-idx?rgn=div5&node=44:1.0.1.2.27
	6b	USACE Regulatory Permits - Clean Water Act (Section 404) and Rivers and Harbors Act (Section 10) Permits (USACE)	The U.S. Army Corps of Engineers, Walla Walla District administers the Regulatory Program in the State of Idaho under Section 404 of the Clean Water Act and Section 10 of the Rivers and Harbors Act of 1899. Under these laws, a permit is required for most construction activities in waterways and wetlands. These include navigable waters, waterways, shorelines, wetlands, most perennial and intermittent rivers and streams, natural and man-made lakes and ponds, as well as irrigation, drainage canals and ditches that are tributaries to other waters located within the State of Idaho. Web link provides additional information about applying for a permit.	Web Link	USACE 2015	http://137.161.203.100/regulatory/module/Main.html
	6c	Stream Channel Alterations Permits (IDWR)	The Idaho Stream Channel Protection Act requires that the stream channels of the state and their environment be protected against alteration for the protection of fish and wildlife habitat, aquatic life, recreation, aesthetic beauty, and water quality. This means IDWR must approve in advance any work being done within the beds and banks of a continuously flowing stream.	PDF and Web Link	IDWR 2015	https://www.idwr.idaho.gov/streams/
	6d	Joint Application for Permit (USACE, IDWR, IDL)	The Department of Army Corps of Engineers (Corps), the Idaho Department of Water Resources (IDWR), and Idaho Department of Lands (IDL) has established a joint process for activities impacting jurisdictional waterways that require review and/or approval of both the Corps and the State of Idaho. The web link contains information about this process including application forms.	Web Link	USACE 2015	http://www.nww.usace.army.mil/BusinessWithUs/RegulatoryDivision/JointApplicationforPermit.aspx

7) FLOODPLAIN MANAGEMENT - STANDARDS AND SPECIFIC ACTIVITIES	7a	No Adverse Impact Toolkit	A toolkit for common sense 'no adverse impact' floodplain management, meaning actions of one property owner are not allowed to adversely impact the right of other property owners.	PDF and Web Link	ASFPM 2013	http://www.floods.org/index.asp?menuID=460
	7b	Including Building Codes in NFIP	Report to Congress regarding the impacts, effectiveness, and feasibility of including widely used and nationally recognized building codes as part of NFIP management criteria.	PDF and Web Link	FEMA 2013	http://www.floods.org/ace-files/documentlibrary/2012_NFIP_Reform/Including_Building_Codes_NFIP_BW-12_Report_Nov13.pdf
	7c	NFIP Community Rating System	The NFIP's Community Rating System (CRS) recognizes community efforts beyond those minimum standards by reducing flood insurance premiums for the community's property owners.	PDF and Web Link	FEMA 2015	http://www.fema.gov/media-library-data/1444398921661-5a1b30f0f8b60a79fb40cefcaf2bc290/2015_NFIP_Small_Brochure.pdf
	7d	HUD Funded Projects	HUD Floodplain Management guidance regarding HUD-funded projects in the floodplain, includes process description and checklist.	Web Link	HUD 2015	https://www.hudexchange.info/programs/environmental-review/floodplain-management
	7e	Transportation Projects	References key documents that govern floodplain encroachment and development of transportation projects for the Idaho Transportation Department.	PDF and Web Link	ITD 2015	http://itd.idaho.gov/manuals/Manual%20Production/RoadwayDesign/Roadwaydesignprintable.htm
	7f	Oil and Gas Floodplain Regulation	A presentation by Amy Brandley of Canadian County, OK at the 2010 ASFPM conference explaining the potential risk with oil and gas drilling within the SFHA. The presentation also includes correct permitting requirements related to this industry.	PDF and Web Link	Accessed ASFPM website on 2015; 2010 presentation	http://www.floods.org/ace-files/Conferences/OKC/ppts/Oil_Gas_Floodplain_Regulation_Brandley.ppt

SECTION	DVD ID	SUBSECTION	DESCRIPTION	FORMAT	SOURCE/DATE	WEB LINK
8) MAPPING	8a	How Do I Find Current Flood Insurance Rate Maps?	Instructions on how to find current FIRMs on the FEMA Flood Map Service Center. The FEMA Flood Map Service Center provides SFHA and community FIRMs.	PDF and Web Link	IDWR 2015	http://msc.fema.gov/portal
	8b	Using the IDWR Flood Hazard Mapping Tool	The online Idaho Flood Hazard Mapping Tool can be used to determine if a structure or parcel is located within the SFHA. IDWR has geo-referenced local communities' FIRMs that overlay imagery base layers. Instructions for using the tool are found in the PDF file provided.	PDF and Web Link	IDWR 2015	http://maps.idwr.idaho.gov/FloodHazard/Map
	8c	FEMA's Flood Map Service Center - Accessing the National Flood Hazard Layer Metadata	The FEMA Flood Map Service Center provides GIS metadata that includes the SFHA zones, BFEs, updated LOMA, LOMR, and LOMR-F information. Instructions for retrieving data can be found in the PDF file provided.	PDF and Web Link	IDWR 2015	https://msc.fema.gov/portal
	8d	Idaho Risk MAP Program	Link to documents relevant to Idaho's Risk MAP program. Risk MAP is a risk reduction program that delivers quality data to the right people at the right time to increase public awareness and lead to actions that reduce risk to life and property.	Web Link	IBHS 2015	http://bhs.idaho.gov/Pages/Plans/RiskMap.aspx
9) FLOOD HAZARD MITIGATION PLANS/PLANNING PREPAREDNESS	9a	State Hazard Mitigation Plan (SHMP)	Identifies hazards, analyzes risks and vulnerabilities, determine potential losses, and develops mitigation strategies to reduce impacts, including flood hazards.	Web Link		http://www.bhs.idaho.gov/Pages/Plans/Mitigation/SHMP.aspx
	9b	Local Mitigation Planning Handbook	FEMA's guide for developing local hazard mitigation plans (HMPs). Local mitigation plans include the same information as the SHMP at the local level, identify policies and risk reduction actions, build partnerships, increase awareness, and are tools for officials.	PDF and Web Link	FEMA 2013	http://www.fema.gov/media-library/assets/documents/31598?id=7209
	9c	Idaho Multi-Hazard Risk Portfolio	A tool designed to evaluate the risk of flood, wildfire, and seismic activity to life and property for 84 Idaho watersheds.	PDF and Web Link	IBHS 2015	http://www.bhs.idaho.gov/Pages/Plans/RiskMap/IMHRP2015_FINAL_DRAFT.pdf
	9d	Idaho Hazardous Materials/ WMD Incident Command and Response Support Plan	Idaho's implementation plan during an incident involving hazardous chemicals, biological agents, or explosive devices or radioactive material.	Web Link	IBHS 2013	http://www.bhs.idaho.gov/Pages/HazardousMaterials/Plan.aspx
	9e	USGS Flood Inundation Mapper	USGS online flood inundation map library and GIS mapper program showing where flooding may occur over a range of water levels in the	Web Link	USGS, continuously updated	http://wimcloud.usgs.gov/apps/FIM/FloodInundationMapper.html

SECTION	DVD ID	SUBSECTION	DESCRIPTION	FORMAT	SOURCE/DATE	WEB LINK
10) FLOOD RESPONSE AND RECOVERY	10a	The State of Idaho's County Emergency Coordinators	A listing of Idaho's county and Tribal emergency managers and their contact information. County/Tribe emergency managers mitigate, plan, train, exercise, and coordinate emergency operations for local events. IBHS Area Field Officers interact with emergency managers for situational awareness and assistance.	PDF and Web Link	IBHS Oct 2015	http://bhs.idaho.gov/Pages/AboutUs/Contact/CountyCoordinators.aspx
	10b	State of Idaho Flood Damage Assessment Packet	This packet provides the appropriate steps following a flood. Also included is information about substantial damage determinations, FEMA's substantial damage estimator, sample letters and mitigation program available.	MS Word Document	IDWR 2015	
	10c	Idaho Emergency Operations Plan	The Idaho Emergency Operations Plan is an all-discipline, all-hazards plan that establishes a single, comprehensive framework for the management of domestic incidents and structure and mechanism for coordination of state support to local, state, and tribal incident managers.	PDF and Web Link	IBHS 2015	http://bhs.idaho.gov/Pages/Plans/Documents/Idaho%20Emergency%20Operations%20Plan.pdf
	10d	NRCS Emergency Watershed Protection Program - Idaho Recovery Plan and Resource Guide	The Idaho Recovery Plan outlines NRCS actions and process for implementation of the Emergency Watershed Protection (EWP) program in Idaho. The objective of the EWP Program is to assist in relieving imminent hazards to life and property from floods, fires and other natural disasters that cause sudden watershed impairment.	PDF and Web Link	NRCS 2013	http://www.nrcs.usda.gov/wps/portal/nrcs/main/national/programs/landscape/ewpp/
	10e	Strategies to Establish Flood Frequencies Associated with Flood Event High Water Marks	Report describing best practices using high water marks to develop flood frequencies associated with documented flood events.	PDF and Web Link	ASFPM 2014	http://floods.org/ace-files/Projects/ASFPM_HWM_Report_Final_201406.pdf

SECTION	DVD ID	SUBSECTION	DESCRIPTION	FORMAT	SOURCE/DATE	WEB LINK
11) LEVEES AND DAMS	11a	USACE National Levee Database	A dynamic database, developed by USACE, that describes location and condition of levees. There are ongoing efforts to add levee data from Federal, States and Tribes.	Web Link	USACE 2015	http://nld.usace.army.mil/egis/f?p=471:1
	11b	USACE Levee System Evaluation for NFIP	USACE can provide assistance with levee certification under very limited circumstances. This factsheet provides some background.	PDF	USACE 2010	http://www.usace.army.mil/Missions/CivilWorks/LeveeSafetyProgram/USACEFEMACommunityPartnership.aspx
	11c	USACE Levee Owners Manual for Non-Federal Flood Control Works	A manual providing general guidance for operation and maintenance of a levee and types of assistance USACE can provide for flood response.	PDF and Web Link	USACE 2006	http://www.nfrmp.us/docs/USACE_NonFed%20Levee%20Owner's%20Manual_Mar06.pdf
	11d	Common Questions: Levee Certification and FEMA Accreditation	A fact sheet that explains the differences between levee certification and accreditation, and the flood insurance implications.	PDF and Web Link	FEMA 2013	http://www.fema.gov/fema-levee-resources-library
	11e	Analysis and Mapping Procedures for Non-accredited Levee Systems	Outlines FEMA's new process to analyze and map areas on landward side of non-accredited levees systems that are shown on NFIPs.	PDF and Web Link	FEMA 2013	http://www.fema.gov/media-library/assets/documents/33587
	11f	Living with Levees	FEMA's Levee Outreach Toolkit is a web site with tools to assist communities with levee related outreach. The toolkit includes templates, flexible materials which local government officials and agencies can adapt and use to address flood risks behind levees and the flood insurance implications of levee status changes in their communities.	Web Link	FEMA	http://www.fema.gov/living-levees-its-shared-responsibility
	11g	So, You Live Behind a Levee!	What you should know to protect your home and loved ones from floods.	PDF and Web Link	American Society of Civil Engineers 2010	http://content.asce.org/files/pdf/SoYouLiveBehindLevee.pdf
	11h	IDWR Dam Safety Program	Information about IDWR Dam Safety Program, including state contacts for more information.	PDF and Web Link	IDWR	https://www.idwr.idaho.gov/dams/

SECTION	DVD ID	SUBSECTION	DESCRIPTION	FORMAT	SOURCE/DATE	WEB LINK
12) FUNDING ASSISTANCE AND GRANT PROGRAMS (OPPORTUNITIES FOR PARTNERSHIP)	12	Idaho Silver Jackets Program Guide	A multi-agency technical resource for state and local agencies. A guide to facilitate communication, share information and provide 'one-stop' to obtain information and identify solutions to reduce flood hazards.	PDF	Idaho Silver Jackets 2015	
13) WEATHER AND RIVER FORECAST INFORMATION	13	Weather and River Forecast Information	Provides web page links to products and information available from the NOAA National Weather Service, Natural Resources Conservation Service, and U.S. Geological Survey related to weather forecast and river conditions. Includes descriptions and links to the Idaho Snow Survey program.	PDF	Compiled 2015	
14) IDAHO FLOOD HISTORY	14	Idaho Flood History	Provides webpages to products and information available from NOAA National weather Service, U.S. Geological Survey and Idaho Bureau of Homeland Security related to flooding in Idaho.	PDF	Compiled 2015
